The Deeply Rooted® Farms Difference

It was our mission when we kicked off the development of our PlantBorn™ line to find a partner who was as passionate about feeding our future as we are, and that could deliver a clean-label, alternative protein source that looks and tastes delicious. Deeply Rooted® Farms delivers all that and so much more.

WOMEN OWNED

The Plants

Yellow peas are grown on farms across the Midwest. They are harvested and processed to extract the starches to create a concentrated pea protein that is then extruded to produce a textured particle.
